FOR ORGANIC
GARDENING

HOW IT WORKS

SNS 244 Fungal Control is absorbed systemically by the plant, suppressing the life cycle of fungal spores and nurturing a plant's ability to fight and prevent disease.

PESTS

Kills fusarium, leaf rust, mildew and is highly effective for the control of plant fungal diseases.

Fusarium

Leaf Rust

Powdery Mildew

Black Mold

BENEFITS

- No residuals
- On the state approved product list for consumable products
- 0-Day re-entry interval, EPA Exempt
- Safe around children and pets, when used as directed

APPLICATION INSTRUCTIONS

MIXING 244C

Shake well before mixing. Mix 16oz of concentrate per gallon of water.

For best results use warm (70 degree) Distilled or "Chlorine Free" water.

FOLIAR SPRAY

Spray ever 2-3 days until problem is under control. Thoroughly wet all infected areas.

USE 244C EVERY 7-14 DAYS FOR PREVENTATIVE MAINTENANCE.
