

ECOMAX™

- ✓ SLOW RELEASE
- ✓ AMENDMENT
- ✓ VEGETATIVE
- ✓ ORGANIC
- ✓ TRANSPLANT ADDITIVE

ECOMAX 6-1-2 is a slow-release organic nutrient derived from neem that is rich in protein, carbohydrates, macronutrients, and trace micronutrients that support plant nutrition and improve soil health. ECOMAX enhances nutrient uptake through chelation with macro- and micronutrients in the cultivation medium, while reducing the alkalinity of the soil.

WHY USE ECOMAX

ECOMAX is a vegan organic plant nutrient derived from neem, a renowned herb that's been a part of traditional natural remedies for almost 5000 years. Utilizing ECOMAX as a soil amendment will provide users with improved soil health, flourishing microbial communities, and a well developed canopy. ECOMAX is 100% safe for the planet, plants, people, and pets, and provides a cost-effective organic fertilizer that is easy to use in any garden.

HOW TO USE ECOMAX

ECOMAX is best used amended into the soil prior to transplanting. For container gardeners, amending ½ cup per gallon of growing media is recommended. ECOMAX is compatible with all soil or soil-less growing media, and can be applied as a tea. For native soil application, apply 5 pounds per 100 Square Feet of area. Reapplication can be done as needed.

GUARANTEED ANALYSIS

Total Nitrogen (N)	6%
Available Phosphate (P2O5)	1%
Soluble Potash (K2O)	2%
<i>Derived From: Neem Seed Kernel Meal</i>
