

GROWTH SCIENCE® NUTRIENTS

Strength® provides your plants with Silica for an increased resistance to stress, helping to improve overall yield. Use Strength® throughout the vegetative phase up to the first two weeks of flowering.

For use in soil, coco, and all hydroponic mediums.

Usage: Use 1.25 to 2.5 ml per gallon of water. Shake well before use. Mix first, and thoroughly, before adding other nutrients.

• In cases of excessive heat or drought use 2.5 ml per gallon throughout the vegetative and flower cycle.

For more detailed feeding schedules please refer to our website www.growthscience.com
