

ROYAL GOLD® SOIL

- ✓ PLANT IN BAG
- ✓ COCO BASED MEDIA
- ✓ SOILLESS MEDIA

ROYAL GOLD is the first nationally distributed coco fiber-based soil company. As a more sustainable alternative to many traditional growing mediums, coconut fiber is becoming widely recognized as the future of indoor and hydroponic gardening mediums and an important part of large-scale agricultural soil building and reconditioning programs. Royal Gold has been resetting the standard for quality, consistency, and performance for nearly a decade.

KINGS MIX

KINGS MIX is a well-aerated moderately amended coco peat blend that uses coco chips to balance aeration with optimal water retention. It is designed to dry quickly and accept immediate feeding. Kings Mix is lightly amended with high-nitrogen, high-phosphorus bat guano, and a mixture of additional high-quality dry amendments that will sustain plants' nutritional needs for 1-2 weeks.

BULK ORDERING

To order **ROYAL GOLD** in bulk, call or send an email to sales@leftcoastwholesale.com for Truckload, Loose, and Tote delivery quotes.

TUPUR

A coco fiber-based soilless product with an ideal balance of oxygen and water-holding capacity, **TUPUR** can be watered up to six times a day and is the ideal choice for automated watering systems. This blend does well in drip, ebb-and-flow, deep water culture, and aquaponics systems.

MENDO MIX

MENDO MIX is a heavily amended coco/soil planting mix suited for outdoor large-scale raised bed gardens in warmer climates, but it also performs well in container-style indoor gardens and greenhouses. This blend promotes adequate water retention and oxygen-holding capacity while supplying a rich fertility program of high-grade dry amendments to performance plants.

BASEMENT MIX

BASEMENT MIX is a coco blend growing media for indoor and container gardening systems. It is lightly amended with top-quality dry amendments and features an even balance of water retention and air-holding capacities. Basement Mix manages runoff and feeds oxygen into the root zone for improved performance and nutrient uptake.

COCO FIBER

COCO FIBER is the industry-leading premium, clean, quality and consistent coconut fiber growing medium. This loose coco is ready to use straight out of the bag as a stand-alone medium, soil conditioner, or a base for your own soil blend.
